

If you think this is too much excitement for one year...

Consider a fixed annuity.

Fixed annuities aren't flashy. In the past, nobody talked about them at cocktail parties. They were often upstaged by the more exciting mutual funds or stocks. But that was the past. Today, fixed annuities, with their underlying minimum guarantees, are looking more attractive to consumers, and people who own fixed annuities as part of a comprehensive financial plan are breathing a collective sigh of relief. After all, why take all the risk?

CA Insurance License #0D59476

Fixed annuities may not be suitable for all. You should consult a licensed insurance agent regarding your financial objectives and unique situation to help determine if a fixed annuity is right for you. Please make sure that you review thoroughly all marketing materials, specimen contracts, buyer's guides, and forms related to the annuity to ensure that it meets your short- and long-term financial situation and liquidity needs.

Withdrawals may be subject to income tax, and a 10% federal income tax penalty may apply to withdrawals before age 59½. Additionally, certain charges (referred to as surrender charges) may apply if you withdraw more than the penalty-free amount in a year.

Fixed annuities guarantee a minimum interest rate on all or a percentage of each contribution over the life of your contract, less any withdrawals and/or deductions and early surrender charges. Guarantees are based on the claims-paying ability of the insurer.
